## (54) CONSUMER TRANSACTION FACILITY

### (57)Abstract:

**PROBLEM TO BE SOLVED:** To reduce the obstacle accompanying an internal temperature change in energy-saving operation.

**SOLUTION:** In this consumer transaction facility, the internal temperature is measured by a temperature sensor part 20 during transaction waiting operation, and when the internal temperature reaches a prescribed temperature, each power source 13, 15, 17 or 17 for a card reader printer 12, a banknote printer 14, a bill receiving and paying machine 16, and a coin receiving and paying machine 18 is changed from ON state to OFF state to switch the transaction waiting operation to energy-saving operation. When the internal temperature does not reach the prescribed temperature, the transaction waiting operation is continued without switching to the energy-saving operation.
